- 75 mm
- 70 mm
- 66 mm
- 62 mm

INDEX LINE

INDEX FINGER GUIDE

PALM WIDTH LINE

PRINT AT 100% SCALE

Size is based on length of index finger for tactile fit.

Instructions:

1. Place a pencil at tip of point "P".
2. Place fingers on the sizing chart. Make sure the Index finger and Middle finger rest snug against the Pencil Stop. Align all fingers vertically.
3. Find where the INDEX line and the PALM WIDTH line intersect in the color-coded size boxes to the top right, for accurate glove size.

Sense of Touch -HORIZONTAL LINE

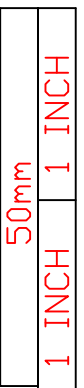

Choose the horizontal line within 2mm of your Index Finger Length. A slightly shorter finger length can be chosen for improved sense of touch. This is a personal choice.

Easy On & Off -VERTICAL LINE

For easy donning on & off, select a colored palm width line that is on or to the right of vertical measured line.

Example: The hand print shown is a size Large (75N).
